

Nimbus Robotics - Internal Knowledge Base

Company Overview

Nimbus Robotics is a fictional company founded in 2016 in Cluj-Napoca, Romania. The company designs autonomous warehouse robots used for sorting and transporting packages. As of 2025, Nimbus Robotics employs 342 people across three offices: Cluj-Napoca, Berlin, and Austin.

The current Chief Executive Officer is Dana Petrescu, who took the role in March 2021. The Chief Technology Officer is Marco Feldman. The company's annual revenue in 2024 was 48 million euros, a 27 percent increase over the previous year.

Nimbus Robotics operates on a four day work week. The standard support email for customers is help at nimbusrobotics dot example, and the emergency hotline operates 24 hours a day.

Product Line

The flagship product is the Nimbus Carrier X3, a mobile robot that can lift up to 85 kilograms and travel at a maximum speed of 2.1 meters per second. The Carrier X3 has a battery life of roughly 9 hours on a single charge and recharges fully in 45 minutes.

The second product is the Nimbus Sorter S1, a stationary sorting arm that can process up to 1200 packages per hour. The Sorter S1 uses computer vision to read shipping labels and has an accuracy rate of 99.4 percent under normal warehouse lighting.

A newer product, announced in late 2024, is the Nimbus Fleet Manager, a cloud dashboard that lets operators monitor up to 500 robots at once and schedule maintenance automatically.

Warranty and Support Policy

Every Nimbus robot comes with a standard warranty of 24 months from the date of delivery. The warranty covers manufacturing defects and battery failure but does not cover physical damage caused by collisions or water exposure. Extended warranty of an additional 24 months can be purchased for 12 percent of the product price.

Software updates are released every quarter and are free for the first three years. Customers on the Premium support plan receive a response within 2 hours, while customers on the Standard plan receive a response within 1 business day.
